

External Bin Support for Private Households

Supporting busy households, independence, safety, and weekly reliability at home

Simon's Property & Community Care provides a simple, reliable, non-clinical external bin placement and return service for people living in private households. The service supports busy households, including families, commuters, and people juggling work, caregiving, or shift schedules, as well as individuals who find bin day physically difficult, stressful, or unsafe. By removing a common weekly task, the service helps households maintain routine, safety, and peace of mind, without relying on neighbours or last-minute solutions.

What the Service Is

A weekly external support service that includes taking council bins out the evening before collection, returning bins after collection, coordinating correct bin placement across waste streams, supporting tidy, well-presented bin areas, and adjusting placement based on property layout or council requirements. The service operates entirely outside the home and does not involve personal care, clinical tasks, or indoor access.

Who This Service Supports

This service is suitable for people who live independently in private homes, find bin day physically difficult, unsafe, or stressful, experience mobility, balance, strength, fatigue, or cognitive challenges, are recovering from illness, injury, or surgery, have busy household routines and value reliability, or want a simple solution without relying on neighbours or family.

Funding & Support Options

Depending on individual circumstances, this service may be privately funded by the household or family, arranged through private aged care or community support providers, or supported through NDIS funding where appropriate, when aligned with goals related to independent living, safety, or functional support. Funding suitability depends on individual plans, provider guidelines, and funding arrangements.

Pricing (for Reference)

The standard weekly rate for a typical household bin placement and return service is \$10 per week. In some situations, pricing may vary depending on access, layout, or shared collection areas. Any variations are discussed transparently and agreed in advance.

What the Service Is Not

To ensure clarity, this service does not include personal care or clinical services, support work inside the home, manual handling beyond external standard bin use, management of loose rubbish, overflow bags, or waste not contained within council bins, or cleaning, gardening, or property maintenance. The service manages council bins only and is designed to complement existing supports, not replace them.

Professional Foundation

Simon's Property & Community Care is built on over 25 years of Registered Nurse experience, specialising in aged care, community care, and palliative care. This background informs a strong

understanding of independence, safety, dignity, and appropriate service boundaries, supporting a thoughtful and clearly defined non-clinical service.
